

Erasmus+

Circular economy for future society: 3R Economy

Adam Ries - Primary School in Berlin Lichtenberg

500 students, 25 teachers and 13 care workers

Highly heterogenous: origin, culture, native language and socio-economic background.

Students/ teachers from Russia, Iran, Syria, Poland, Turkey, Romania, Bulgaria, India, Pakistan or Africa

Erasmus+ Project:
Circular economy for future society: 3R Economy

Our Experience with Erasmus+

We participated in an Erasmus+ project formally called Comenius.

Some of the responsible teachers attended an education course of Erasmus+ before.

The teachers are fluent in English and other European languages and eager to learn and develop their teachers personality.

Has the organisation participated in a European Union granted project in the 3 years preceding this application? Yes.

Erasmus+ Project:
Circular economy for future society: 3R Economy

Compulsory subject „Europabildung“:

- from grade 4 to 6
- Spanish, Italian, Latin, Russian, French language
- geography, traditions, culture and language skills

Erasmus+

Circular economy for future society: 3R Economy

Erasmus+

Circular economy for future society: 3R Economy

Projects at Adam Ries Primary School:

- Recycling in our school (waste, material, energy)
- Upcycling Workshops: products from recycled material
- Reusing system in our school (books, clothing, paper)
- Exchange and communication with students from abroad
- School gardening concept (reuse of biomass: composting)

Erasmus+

Circular economy for future society: 3R Economy

Why do we participate?

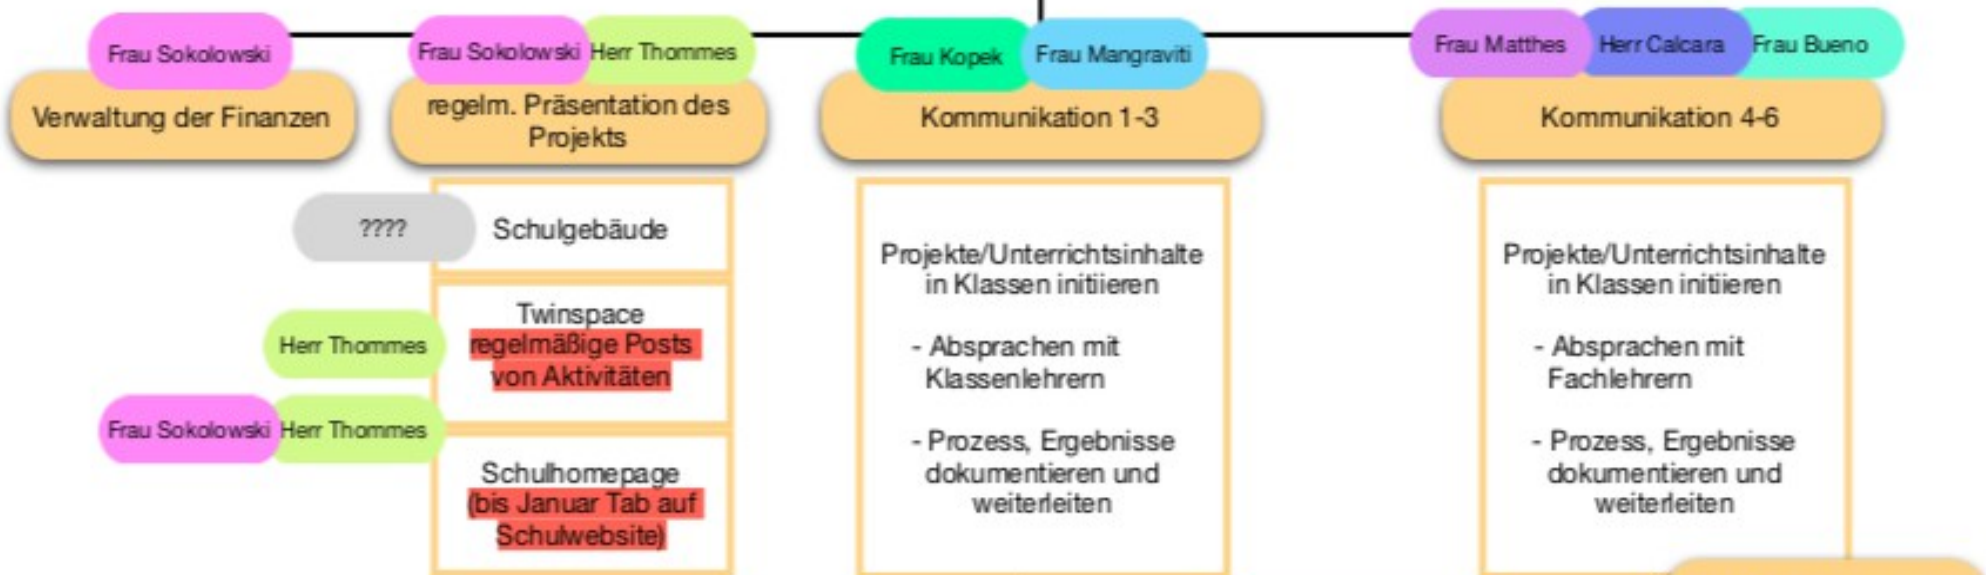

The project provides opportunities for some of our students to travel and get to know other European countries,

their **inhabitants**,

their **cultures** and

their **languages**.

Koordination und Organisation Erasmus+ 2020/2022
