MEETING THE TEACHERS

“PEDIBUS”this is the name of this new ecological means of transport!!!! Pedibus translated in English would be:” bus on foot”. How does it work? Let’s find out with this short presentation. The students of our primary school every morning meet their teachers and some parents at a meeting point near their houses where they start moving to schoolon foot altogether!

READY TO GO!

There are four different stops along the route of the PEDIBUS and each one has a different name of four different flowers. The student can choose to wait the bus at the stop which is closer to his/her own house.

ISTITUTO COMPRENSIVO "SM IMBRIANI L. PICCARRETA"
SCUOLA - PRIMARIA - PLESSO FIERAMOSCA

PROGETTO PEDIBUS
A.S. 2021 - 2022

AIUOLA ADOTTATA DAGLI ALUNNI
DELLA CLASSE 3^E

AT THE BUS STO

At the bus stop there is a vase with the flower which gives the name to the stop with a sign where is written the class of the primary school which has to stop there and the time of the departure of the bus.

ON THE MOVE...

The students to take the bus have to wear a coloured cap so that they can be easily identified and different classes wear caps with different colours.

THE BUS DRIVER

The teacher is the “bus driver” so he /she takes care of them but also the parents can help the teacher to move safely the happy bus

TO CROSS THE ROADS

To cross the roads it's not a problem with this funny supergreen bus....car drivers stop watching amused the long coloured noisy snake moving across the town

CERTIFICATION

To all the students taking part to the project the school gives a certificate of attendance signed by the head of the local police
